Peninsular Planished Steel
Ranges. My expense of doing
business is low, and will
therefore sell you ranges ac-
cording to my expense of
doing business.

G. O. NELSON,
HOUSEFURNISHER.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thompson states one cubic
foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations
in homes.
SAFE! As electric light work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not
in use it is cheaper than any other illuminant.

Commercial Light and Power Co. OFFICES—

**RIGHT IN
MANILLA**

The Filipino Junta Has Moved
Headquarters There From
Hong Kong.

CAPTURE A VESSEL

The Steamer Saturnus Des-
troyed By the Insurgents
of San Fernando.

London, Aug. 5.—Lloyd's agent at
Manilla cables that the insurgents at
San Fernando have captured and
burned the U. S. steamer Saturnus.

New York, Aug. 5.—A dispatch to the
World from Hong Kong says: Aguin-
do has an advisory council right in
Manilla. Hong Kong having been
made too hot for the Filipino junta,
through the efforts of United States
Consul General Willman, the rebels de-
cided to attempt to establish their head-
quarters in Manilla.

They were encouraged to try this dan-
gerous experiment by the fact that under
a recent decree of Governor General Ota-
naga the Philippine courts are now con-
fined to natives.

So Crisanto Lichancho, the treasurer
of the junta, went boldly to Manilla
and professed friendship for Gen.
Ota.

The scheme worked so well that the
delighted junta has celebrated its vic-
tory with a grand ball.

DETAILS NOT KNOWN.

The Saturnus Belonged to the Com-
pania Maritima.

Manilla, Aug. 5, 6:30 p. m.—The
steamer Saturnus of the Compania
Maritima, coming under the American
flag, was burned Wednesday and her
crew is missing. The details of the af-
fair are not known.

The captain of the Saturnus once ob-
tained possession of a ship belonging
to the Maritima company, held at San
Fernando by the insurgents, by mount-
ing the Saturnus alongside and hauling
the other vessel away in the night.

AFFAIRS IN ZAMBOANGA.

Commander Very Tells of the Span-
ish Evacuation.

Washington, Aug. 5.—The navy de-
partment has received a report from
Commander S. W. Very, of the Cas-
tine, containing some reference to
the evacuation of Zamboanga, on the
island Mindanao, and to certain re-
changes he had with the natives. In
part the report reads, under date of
Zamboanga, Aug. 29:

"On May 24 the Spanish left I fired
twenty-one guns, Spanish ensign at
main. Considerable enthusiasm
board Leone XIII, all the officers and
sailors shouting 'Vive,' and the sailors
shouting 'Vive.' Same day I heard
from a steamer which arrived from
Zamboanga that the Spanish had
left. I have no orders so to do, I de-
cided to remain to support their land-
ing. The insurgents moved in im-
mediately after the Spanish moved out.
They have not yet shown the insurgent
flag."

"Sunday, May 28, the Princeton ar-
rived. I had to give all the in-
formation I had to the United States
senator on board. She left at 9 a. m.
for Manila."

"I received a communication asking
if I would receive a commission of dis-
tinguished individuals to discuss ques-
tions of interest to both parties. I re-
plied at once.

"I have your letter of this date ask-
ing that I will receive a commission of
distinguished individuals to discuss
questions of interest to both parties. I
replied at once.

**A WHITE
GOVERNOR**

Future Ruler of Samoa to
Be Chosen By Three
Powers.

A FINAL AUTHORITY

There Will Be No Appeal
From the Chief Justice's
Decisions.

San Francisco, Aug. 5.—The steamer
Hong Kong, which brings the following
advice from Honolulu under date of
July 25:

The U. S. steamer Badger, bearing two
of the Samoan commissioners, arrived
at this port Wednesday afternoon, July
26, eight days from Apia on her way
to San Francisco. On board are Hon.
Bartlett Tripp, the United States com-
missioner, and Baron Von Sternberg,
representative of Germany. C. X. E.
Eliot, commissioner for Great Britain,
sailed by way of New Zealand and
later will be in London, to report directly
to his government.

The latter days of the commission's
stay in Samoa were devoted to creating
a political organization that would be
satisfactory to the Samoans and would
officially approve the arrangement in
concern under the tripartite treaty. A
scheme was adopted. The members of
the committee decline to state its par-
ticulars until it has been referred to
their respective governments, but they
have given out that Samoa will in fu-
ture be ruled by a white governor, ap-
pointed by the three powers, much as
the chief justice is at present. There
will be a native council or legislature,
which will have the power to advise
power and the chief justice will be the
final authority in the land, from whom
there will be no appeal.

This arrangement met the approval of
the Samoans. The day before the com-
missioners sailed the local government
men from each faction met on the
Badger and signed the articles, thus
officially approving the arrangement in
the name of their respective chiefs—
Malatani and Malatani.

When the commission sailed all was
quiet and seemed likely to remain so.
Residents of San Francisco have heard
the commissioners' claims aggregating \$400,
000 for property destroyed during the
recent temporary occupation of Samoa
by American and British sailors. The
largest claim is from the Catholic Mar-
tinez mission, \$20,000 for that part of
the premises by natives upon instruc-
tion of the missionaries. Another claim
is for \$10,000 for the same reason.
Other claims are for the loss of prop-
erty, such as the engine house, which
was destroyed by fire.

On the Badger were 3500 rifles taken
over to the United States government
at Manila. The rifles were taken over
by J. F. Hackford, for the past five years
has been general here for Austro-Hun-
garian.

STARVATION.
Deplorable Condition of the
Poorer Classes Since the
Carrabelle Disaster.

Mobile, Ala., Aug. 5.—The Mobile
Carrabelle steamer Alpha is safe, hav-
ing reached Carrabelle the day after
the storm. Turner Andrews, gives the
first details of the effects of the storm
at Carrabelle. Fourteen large vessels
were wrecked upon the beach. Houses
were blown down, some overturned, and
everything was in great confusion.
The Carrabelle was blown away, and
was blown away, save one room that was
left with the floor and two walls. But
two persons were killed, and many are
injured beyond repair. Sticks of
timber from the yards on the river bank
were blown down and through the
sides of some of the houses, and as yet
there is no place in which to store new
stocks.

Starvation for the poorer classes and
the loss of their property, as even their
clothing was blown away.

A DEBATABLE QUESTION.

Whether Gold Certificates Will Meet
Demand For Currency.

Washington, Aug. 5.—The treasury
department today made requisition upon
the bureau of engraving and printing
for the printing of \$10,000,000 gold cer-
tificates in denominations of \$20 each.
The treasury now holds a large un-
issued supply of certificates of the
\$20 denomination.

It is the intention of the treasury
department to be in a position to
issue gold certificates freely for gold
coin, should the fall movement of cur-
rency lead to a demand at the treasury
for gold certificates in exchange for
gold coin.

It is to be noted that while coins can
be freely had in denominations of five
and tens, the law restricts the issue of
gold certificates to denominations of
\$20 or multiples thereof. It is a de-
batable question, therefore, whether gold
certificates will meet the demand for
money of small denominations.

DEWEY'S ACCEPTANCE.

The Mayor of New York Receives
a Letter.

New York, Aug. 5.—The following let-
ter from Admiral Dewey, dated Trieste,
Austria, July 24, was received by Mayor
Van Wyck this morning:

"I have the honor to acknowledge the
receipt of your letter of June 29, tender-
ing me the citizenship of New York.
I have a public reception upon my arrival,
and extending to me the hospitalities
of the city."

"In accepting this invitation I desire
to express my deep sense of gratitude
to the citizens of New York and their
representatives for so signally honoring
me."

"It is impossible at this time to fix
the exact date of the Olympia's arrival at
New York, but I shall endeavor to in-
form you definitely by cable from
Gibraltar."

"I am, sir, very truly yours,
"GEORGE DEWEY."

MORE GOLD CERTIFICATES.

Will Be Printed If Needed to Help
Move Crops.

Washington, Aug. 5.—The secretary of
the treasury has given orders for the
printing of gold certificates with a view
to securing their issue if needed in the
movement of fall crops as present indica-
tions indicate.

CENSUS SUPERVISOR.

Washington, Aug. 5.—John V. Miller,
of Wausau, Wis., has been designated
census supervisor for the Eighth district.

STOPPED IN MID OCEAN.

New York, Aug. 5.—The South German
Lloyd steamer Lahn, Capt. Pöhlner, which
left New York on Sunday, July 30, and
today, sixty hours late, was obliged to
stop in mid-ocean, owing to the breaking
of the forward connection of the main
shaft. The ship stopped at the 25th at 6 p.
m., when the steamer proceeded at the
rate of sixteen knots during the remain-
der of the voyage.

"SKEETS" WIN AGAIN.

London, Aug. 5.—At the Levee sum-
mer meeting today, "Skeets" Martin, the
American jockey, won the Mount Latta
plate of 100 sovereigns on St. Elise. Dol-
ley was second and Portico finished
third. There were four starters.

CAMPANIA PASSINGERS.

New York, Aug. 5.—The Campania, col-
ored by the Italian flag, the jockey, Pe-
lar, Palmer, the pugilist, and Israel Zang-
will, arrived here today on the Campania.

NO NEW CASES.

Newport News, Va., Aug. 5.—There
were no deaths and no new cases of
yellow fever at the Hampton Soldiers'
home today.

**A WHITE

Why is Electric Light Best?
Because it is Healthy, Clean, Pure and Brilliant.
HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

Commercial Light and Power Co. OFFICES—215 W. Superior St.
I want to see those people who want the very best
DENTAL WORK at a very moderate price.

Opinion of Dreyfus' Counsel on the Result of the Trial.

THE SECRET DOSSIER

Impression is That Both Carriere and Jouaust Made Bad Debut.

Paris, Aug. 8.—A dispatch to New York from Rome says that Carriere and Jouaust, the two counsel for Dreyfus, made a bad debut at the trial.

"You feel quite sure of victory this time?"
"Yes, entirely," he said confidently. "The judges are already aware of Dreyfus' innocence. Only old Col. Jouaust seems—seems—I say afraid, lest he appear prejudiced. So he appears unnecessarily hostile towards Dreyfus."

"Do you think that the general opinion is that Dreyfus is too vehement?"
"Put yourself in his place," answered M. Labori with a shrug. "Naturally, he is anxious to impress his judges. This wretched joke has already lasted too long."

"How long will the trial last, do you think?"
"M. Labori shrugged his shoulders. "Anywhere from eight days to three months. I have no idea what tactics the government's commission intends to adopt. I am not in his confidence. All these fine soldiers keep as much from me as they possibly can."

Mme. Dreyfus was not in court because of the increased number of anonymous threatening letters she daily receives. Her villa is now protected night and day by an increased force of gendarmes.
Defiance, one of Dreyfus' attorneys, says that he is convinced the examination of the much-talked-about secret dossier—the war department's mysterious documents—will not require more than two sessions. He

"As soon as the exhibit documents we will puncture their famous secret dossier, and will be shown that there is nothing in it. Col. Jouaust knows it. That is why he ordered secret sittings until further notice. Instead of for four days, as was recommended by M. Labori, he has ordered secret sittings until further notice. They are heard on all sides saying that it is a trick of the government putting such a ridiculous person as Carriere in charge of the prosecution."

When Labori came out of the prison tonight he told a group of newspaper men:
"Wait till I get some of these strutting generals on the witness stand—Mercier, Dreyfus, and others. Then we shall have some fun. I am anxious to get at them."

Gen. Dreyfus, Gen. Gonz and ex-Minister of War Cavallier, sent a basket of flowers to Mme. Henry tonight.

SECOND DAY'S SITTING.

The Court Adjourned After a Brief Secret Sitting.

Rennes, Aug. 8.—The police arrangements in the vicinity of the Lycee on morning were exactly the same as those of yesterday, but not more than a hundred persons gathered in the courtyard. At 10 o'clock—fixed for the opening of the day's proceedings in the trial of Capt. Dreyfus.
The prisoner was conducted to the Lycee at 10 o'clock, and exactly the same scene was observed as on yesterday. As soon as Dreyfus was taken into the courtroom, the police cordons were removed and the crowd of spectators was allowed to circulate freely in the streets around the building.

No demonstration was made upon the arrival of Capt. Dreyfus at the Lycee. The members of the court-martial, or of Gen. Chanoin, formerly minister of war, who attends the court to give necessary explanations as to the proceedings, arrived today or tomorrow. Then M. Labori, one of the prominent officials of the defense, will take upon himself the task of enlightening the judges regarding the dossier.

Gen. Chanoin was accompanied by an officer carrying a folder in which were M. Chanoin's notes and other papers referring to the dossier, which he carried in a strong box and a room contiguous to the court room. This strong box is guarded night and day by an officer specially detailed for this duty.

The secret sitting lasted until 11:35, when the court adjourned until tomorrow morning.

The day thus far passed quietly. There was a much bigger crowd than yesterday assembled in the hope of obtaining a glimpse of Dreyfus during the few seconds occupied by him in crossing the Avenue de la Gare on his way back from the Lycee to his prison.

At the conclusion of the sitting the crowd, numbering about 300 persons and composed purely of sightseers, was allowed to pass freely before the Lycee until a few moments before Dreyfus emerged.

The crowd of gen d'armes made a sign to his assistants, who raised a white flag. Before the shrill sound had finished the clatter of hoofs was heard and a moment later a strong detachment of mounted gendarmes, followed by gendarmes on foot, galloped into the avenue from a side street, wheeled around and divided into two detachments stretching across the avenue and cleared a space of 20 yards in front of the Lycee. The horsemen rode down sidewalks, clearing out everybody. Even the newspaper men were driven away. Then a detachment of infantry, headed by a bugler, rushed up at double-quick and formed across the avenue from the Lycee to the Lycee in the western gate of the prison. The Lycee was stationed shoulder to shoulder, facing outwards and towards the spectators, who were crushed behind the mounted gendarmes a hundred yards or so.

Soon afterwards somebody shouted: "Here he is!" and a crowd of sightseers, who had come from neighboring towns to see the famous prisoner, rushed to catch a glimpse of Dreyfus as he passed through the line of soldiers.

A CHILD IS KILLED

The Gunboat Napidan Shells a Town Formerly Assured of Safety.

OFFICIALS GRIEVED

Gen. Lawton Accuses Capt. Otis of the Washingtons of Cowardice.

Manilla, Aug. 8.—The gunboat Napidan last week shelled the town of Manila, near Santa Cruz. The town was full of people who had been encouraged to return after Gen. Lawton's expedition, having been assured that they would not be molested if they peacefully attended to their business.

Lieut. Copp, who was in charge of the Napidan, heard that the insurgents had re-occupied the town and, steaming under open fire with his 6-pounders, the boat approached, fired to the hills in a terrified condition and with barely time to escape. One child was killed and many buildings were damaged. The authorities express great regret on account of the deaths.

After the taking of Manila by the Americans, Gen. Lawton ordered that Capt. Otis of the Washingtons be relieved of his command and placed under arrest on account of slowness and seeming reluctance of the troops under his command in obeying orders to dismember the town. The men say that a majority of them have been sick and unfit for duty and would not be asked to do any more fighting.

THEIR HOME-COMING.

Minnesota Troops Will Sail From Manila on Friday.

Washington, Aug. 8.—The following cable has been received from Gen. Otis: "Manilla, Aug. 8.—Adjutant General Washington, Tapanan rendering work on bay impossible, passed Aug. 6. Transport Pennsylvania leaves Iloilo, Cebu, and Manila, this evening. Sheridan with Minnesota troops, South Dakota and disarmed soldiers for San Francisco Aug. 11. Valencia and other troops, leaving requiring ten days good weather, leave with Montana and disarmed men. Nagasaki, both coming and returning. Expedite business here where facilities for loading and unloading vessels are primitive."

WANTS TO BE RECOGNIZED.

Aguinaldo Makes an Appeal to the Foreign Powers.

Manilla, Aug. 8, 4:30 p. m.—Aguinaldo has appealed to the powers for recognition of his government. He has a document dated from Tarlac, July 27, signed by Aguinaldo, which has been received by the powers. The document is a declaration of independence, in which he claims that the Philippines are a free and independent people, and that he is their lawful ruler.

HANDSOME WEDDING

Marriage of Miss Mary Peyton and Russell Baxter at Bride's Home.

A LARGE RECEPTION

Great Number of Friends Are Received From 8:30 to 11 O'Clock.

The marriage of Miss Mary Peyton, daughter of Mr. and Mrs. Hamilton A. Peyton, and Russell Baxter, of West Superior, took place last evening at the home of the bride's parents, 1329 East Superior street. The marriage ceremony took place at 7:30 o'clock and from 8:30 to 11 o'clock there was a large reception.

The wedding ceremony was a very quiet one and was performed in the presence of the relatives and a very few friends. The ceremony was performed by Rev. A. W. Ryan, of St. Paul's Episcopal church. At the conclusion of the ceremony the bride and groom were taken to the drawing room where they were seated. The bride was wearing a white gown and the groom was wearing a dark suit. The reception was held in the drawing room and was attended by a large number of friends. The bride and groom were the center of attraction and were surrounded by their friends. The reception was a very pleasant one and all enjoyed it very much.

A little surprise to all even the members of the family, was sprung by the bride's friends. They had arranged to have a surprise party for the bride and groom. The surprise was a very pleasant one and all enjoyed it very much. The bride and groom were the center of attraction and were surrounded by their friends. The reception was a very pleasant one and all enjoyed it very much.

The house was decorated in a very pleasing manner. The drawing room was decorated with flowers and the dining room was decorated with a large chandelier. The reception was a very pleasant one and all enjoyed it very much. The bride and groom were the center of attraction and were surrounded by their friends. The reception was a very pleasant one and all enjoyed it very much.

COMPANY ACCEPTS

City Will Get Lights For Another Year at \$85 Per Light.

THE FERRY MATTER

Laid Over Two Weeks to Get Propositions For a Toll Ferry.

The council last evening received from the Commercial Light and Power company an acceptance of the council's offer of a one year contract for 288 lights of the same candle power as those now furnished at \$85 per light. The council directed that the contract be signed by the proper officials, thus settling the question of street lighting for another year. The acceptance was filed with the city clerk yesterday afternoon. It is to be noted that the city's offer is accepted by the company and is signed by O. C. Hartman, vice president of the company.

The award by the board of public works of the contract for steam ferry service at the canal to J. Ryan for the Estelle is not confirmed, and, instead, a resolution, introduced by the harbor and docks committee, was passed directing the board to hire a steam ferry boat for fifteen days at a cost of not to exceed \$22 per day. A resolution was introduced by Alderman Carey, directing the board of public works to advertise for propositions for a toll ferry, at a rate to be fixed by the council, permanent residents of Park point to be carried free, and directing that the toll ferry companies be requested to state what they will be willing to do in the way of sharing the expense of the ferry, if it went over a week.

There was considerable debate over the ferry matter. The residents of Park point are in a hurry to get a ferry, and the council is in a hurry to get a ferry. The residents of Park point are in a hurry to get a ferry, and the council is in a hurry to get a ferry. The residents of Park point are in a hurry to get a ferry, and the council is in a hurry to get a ferry.

Alderman Crowley advanced the idea that the city should own a ferry. He said that the city should own a ferry. He said that the city should own a ferry. He said that the city should own a ferry. He said that the city should own a ferry.

Enlarging Facilities. Northwestern Coal Railway Company to Increase Its Trackage. The Northwestern Coal Railway company has already started upon the enlargement of its railroad facilities at Albion. The yards are being increased by the addition of about a mile and a half of track. The new track will be in the vicinity of the water tank which is in the middle of the yard. The new track will be in the vicinity of the water tank which is in the middle of the yard.

The dock expects to handle considerable more coal this year than it did last season and the extension of the railroad facilities is made necessary on this account. Last year about 100,000 tons were received and shipped by it.

Beecham's plan for distress after eating.

The plans are ready.

Bids to Be Received Soon on Twine Company's Buildings.

The contractors have been notified that the plans for Superior's new grain twine factory are now ready for inspection. They are in the St. Paul office of the Northwestern Grain Twine company and the contractors desiring to bid upon the construction of the plant will go there to investigate them.

A Modest Lady's Statement. Miss Hattie Ketchum, Mount Pleasant, Iowa, writes in reference to our Globe Hair Restorer and Dandruff Cure. She has a strong dislike to seeing my name in print, but you may say my name for anything you may want to say, for I am sure you could not recommend it in terms so strong that I should not be willing to subscribe to it. I do not see how any preparation could possibly be more effective, and from my own personal experience with it, I can say it is simply perfect. Will be sent to any address prepaid for \$2. Globe Manufacturing company, Grinnell, Iowa. Sold and guaranteed by A. Quilly, Main North St., Duluth, S. O. Sterrett, Duluth, Minn.

The Daylight Train For Iron Mountain, Escanaba and Marquette.

Special Sunday Trains TO SPIRIT LAKE AND FOND DU LAC.

A Brilliant Spectacle.

The evening program of the state fair will be a very brilliant one.

The article you pay the most for is the one that is not worth the price.

The article you pay the most for is the one that is not worth the price.

The article you pay the most for is the one that is not worth the price.

been prepared especially for the fair and is the first modern war spectacle presented to the American public. The portion of Manila that was burned will be represented exactly as it was with fruit stands, carts, street cars and other real things in the foreground, with soldiers of the Thirtieth about their headquarters, the Red Cross service with the ambulances, the terrific bombardment from the fleet, the frightful havoc of the real battle which comes up full gallop, while the action cannot be separated from the spectators and is witnessed with the reality of the entire scene and action. The men, the artillery, the guns, the firing, the bombardment, the water, the street cars, the horses, the battle torn by shot and the air full of bursting bomb shells he knows are real. The rest is so real, it will be a thrilling story telling and one that will impress a historical event of vast import on the mind of every one who sees it.

IT READS VERY FUNNY. Superior's Explanation of the Defeat of Its Oarsmen.

There is something irresistibly funny in the way the Superior team lost yesterday to the Cleveland crew. The Superior team's defeat is a surprise to many of its friends. The Superior team's defeat is a surprise to many of its friends. The Superior team's defeat is a surprise to many of its friends.

GOVERNOR BUSHNELL HERE. Makes Trip on the North West to Benefit His Health.

Governor Bushnell and his family, accompanied by Mrs. Bushnell and Mr. and Mrs. John R. Bushnell, are visitors in Duluth today, having come in on the North West from Cleveland last evening. The Governor and his family are in Duluth for a few days. The Governor and his family are in Duluth for a few days.

IS YOUR BACK BREAKING?

Does it feel that way?

It's a warning that your kidneys are giving—

Help them! The kidneys need it, or they wouldn't ask so sharply for aid.

Keep the kidneys right, and good health will always be your portion—

How will you do that—

Take

KID-NE-OIDS

the modern, scientific, practical up-to-date medicine that banishes kidney backache, kidney ailments, sleeplessness and urinary disturbances in either adults or children.

The first dose of Kid-Ne-Oids works wonders—a week's trial will oftentimes cure mild cases—take a box or two and your kidney trouble will disappear.

Disordered kidneys are indicated by pains in the back, distress or fullness after eating, scanty or scalding urine, weakness and chills, pains in the loins, nervousness, sleeplessness, loss of vitality, swelling in limbs or body or both, and sediment in the urine.

Kid-Ne-Oids are in yellow tablet form—put up in boxes—sell for 50c a box at all drug stores—your druggist will tell you of cures they effected here at home—he will vouch for the truth of our every assertion.

Morrow's Liverlax cures constipation, biliousness, costiveness—they sell for 25c a box—at all drug stores.

Kid-Ne-Oids and Liverlax, manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumes as much oxygen as four adults.
CLEAN! It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

HOPES IT IS UNTRUE.

Feeling of Joseph Chamberlain as to Transvaal Report.

London, Aug. 9.—(Special to The Herald.)—To various questions in the house of commons today Joseph Chamberlain said no official confirmation had been received of the report that the Transvaal had decided to agree to a joint inquiry into the effect which the franchise reforms will have on the franchise.

Several regiments, he added, were about to be despatched to South Africa for the defense of Natal, in response to the request of the Natal government, and preparation was being made for all contingencies.

Later, replying to T. P. O'Connor, Mr. Chamberlain deprecated a resumption of the debate on the Transvaal situation, which, he pointed out, while serious, still remains doubtful. The colonial secretary declared that he sincerely hoped that the report saying the inquiry proposal had been rejected was untrue. While he regretted the necessity of answering Mr. O'Connor, it would be a fatal mistake to allow the latter's views, that a war was entirely needless and that the government ought to express willingness to visit, maybe twenty-five years, for the redress of the grievances of which they complained, to be completed.

He added: "The representative opinions of even the small minority in the house of commons or anything but the most insignificant minority in the United Kingdom, on the government's policy, have been clearly expressed. We recognize the grievances of the Transvaal and have said that these grievances are not merely themselves a serious cause for intervention, but are a source of danger to the whole of South Africa. We say our preponderance is motivated by the action of the Transvaal in refusing to redress the grievances or give consideration to requests hitherto put to the most moderate language of a reasonable power. We say that this state of things cannot be tolerated. We have put our hands to the plow and won't draw back. With that statement I propose to rest content."

WANTS A COMBINE.

President of Argentine Republic Said to Desire One.

Rio de Janeiro, Aug. 9.—In spite of details on the subject, it is said that President Roca, of the Argentine republic, who is now here as the guest of Brazil, is desirous of negotiating an alliance between Argentina, Brazil and Chile against the United States. The presidents of these three republics will meet at Buenos Ayres next month.

GENERAL DESERTED

Government Troops Sent Out to Attack Desert to the Enemy.

Cape Haytien, Hayti, Aug. 9.—Gen. Francisco Lefranco, sent to Monte Cristo by the Dominican government to attack Gen. Ramon Pacheco at Jajale, the headquarters of the revolutionists, was abandoned when he arrived in front of the enemy, by his troops, who, without firing a shot, deserted and entered the camp of Gen. Pacheco. The advanced posts of the latter are at Las Aguas and the revolutionists are masters of the roads across the River Yaque, thus cutting off communication between Gen. Pacheco and the interior.

The forces of Don Juan Isidro Jimenez, leader of the revolution, are being augmented every day and the news from all parts of the Dominican republic is favorable to him.

ARE BUYING TUGS.
Representatives of the Insurgents of San Domingo.

Philadelphia, Aug. 9.—A morning paper says: Three officers, representing the insurgents, were in the city, two civilians, representing those who do not like the manner in which President Sam Managua affairs in Hayti, and one a naval officer, representing the navy. They are here to buy tugboats for the navy.

\$5.00

By a special deal we are enabled to make this small price on coats that would otherwise be \$7.50.

JOHNSON & MOE.

WEST DULUTH

One considerable drawback in West Duluth is the lack of sanitary sewers. At present there is but one in the entire district and that is in the alley between Fifth and Sixth streets. There are no storm sewers in the streets, and in some instances the council has issued permits for connections from houses to these sewers. This is a bad practice, as it can only result in detriment to the public health.

In some quarters the demand for sanitary sewers is becoming quite pronounced, and in accordance to that demand the city council has secured the passage of a resolution directing the city engineer to make estimates of the cost of a sanitary sewer system for West Duluth.

There is some opposition to taking up the work at this time, owing to the cost, but it is a matter that can be left to the future. It is a matter that can be left to the future. It is a matter that can be left to the future.

It is believed that with sanitary sewers a better class of residences would be erected here, and that houses at present vacant would fill up more rapidly.

WEST DULUTH BRIEFS.

W. H. Armstrong, the liverman, died of his injuries yesterday to R. H. Hulse. The latter is an old resident of Duluth.

It is believed that with sanitary sewers a better class of residences would be erected here, and that houses at present vacant would fill up more rapidly.

THE SHOOT IS OPENED

Tournament of Central Gun Club In Progress at East End Grounds.

WEATHER NOT GOOD

This Has Caused a Falling Off In Attendance—Scores to Noon.

The first day's shoot in the seventh annual tournament of the Central Gun Club is on today, and despite threatening weather the shooting has been remarkably good, with Duluth men averaging away up in the bunch. The weather conditions, however, have been a serious handicap in the afternoon, and number of entries for today's events. Among the string of outsiders in today's shoot are: J. L. D. Morrison and F. W. Ramsey, of St. Paul; G. L. Hancock, of Stillwater, and H. C. Bancroft, of Chicago. All the cracks from Duluth and Superior are entered today, but some of them prefer shooting this afternoon five events and leave what off, each event being fifteen birds each. This morning's scores were:

Event	1	2	3	4	5
Dickie	10	10	10	10	10
Patten	10	10	10	10	10
Delaware	10	10	10	10	10
Hamaley	10	10	10	10	10
Kabo	10	10	10	10	10
Bann	10	10	10	10	10

INSIDE AND OUT.

What a bath does for the skin.

Beecham's Pills do it. Beecham's Pills act without pain or gripping. They gently stimulate the bowels and rouse the liver into healthy action.

If your tongue is coated or your breath is foul, if you have a bad taste in the mouth, but with no other symptoms, poor circulation, backache, flushes of heat, plus the gentle, thorough cleansing that Beecham's Pills alone can give.

An annual sale of 500,000 boxes proves that these pills are the most popular remedy on earth for constipation and its kindred disorders.

CITY BRIEFS.

NEWS OF THE LAKES

Collision Between the Barges Leader and Dunmore In St. Mary's River.

THE LEADER IS SUNK

Crew All Saved--The Dunmore Was Slightly Damaged But Proceeded.

Detroit, Mich., Aug. 8.—(Special to The Herald).—A collision occurred this morning between the barge Leader, bound up with coal in tow of the steamer Point Abino, and the Canadian barge Dunmore, bound down from Lake Superior with grain, in tow of the steamer Bannockburn. As the boats were passing each other in the river just above the head of Belle Isle, the Dunmore took a sheer and struck the Leader on the port bow, causing her to stove in two minutes. The crew were all saved. The Dunmore had a couple of planks stove in about the water line, but the cargo was not put on shore, and she left for Kingston in tow of the Bannockburn.

The Leader, a 100-ton barge, was bound up with coal in tow of the steamer Point Abino, and the Canadian barge Dunmore, bound down from Lake Superior with grain, in tow of the steamer Bannockburn. As the boats were passing each other in the river just above the head of Belle Isle, the Dunmore took a sheer and struck the Leader on the port bow, causing her to stove in two minutes. The crew were all saved. The Dunmore had a couple of planks stove in about the water line, but the cargo was not put on shore, and she left for Kingston in tow of the Bannockburn.

Silberstein's Bond Company

Yesterday's Stormy Weather

Kept many patrons from the store who would undoubtedly have taken advantage of our exceptional offerings. The same previously advertised prices will prevail tomorrow and the balance of the week, reinforced by many additional numbers of decided merit. A few days more will see the last of the most important Dry Goods selling Duluth has seen in many months. The few days left will be ample for you to come and take advantage of the offerings, but too long a delay might prove disappointing, as many lots are very low.

The selling of Plain and Col'd Wash Suits and Skirts at Almost Half

should clean out every garment by tomorrow. Of course, a great deal of importance is attached to the

Dress Fabrics, Wash Goods, Silks, Linens, White Goods, Domestic, Laces, Embroideries, Ribbons, Dress Trimmings, Pocket Books, Handkerchiefs, Corsets, Children's Headwear, Tailor-Made Suits, Belt Buckles, Neck Clasps, Shirt Waist Sets, Cuff Buttons and other Jewelry Novelties, Underwear, Hosiery, Shirt Waists, Women's Neckwear and Sterling Silver Novelties.

SILBERSTEIN & BONDY COMPANY.

All our Men's \$3.00 Tan Shoes, all styles, made by the best Eastern manufacturers, all go on sale at only

The Famous Shoe Store,
111 West Superior Street.

THE CROP REPORTS.

Bulletin of Weather Bureau from Minnesota and North Dakota.

The weekly crop bulletin of the weather bureau of North Dakota for the week ending Monday, Aug. 1, says:

"The past week has been like its predecessor, cool and except for scattering showers, dry. Rain is needed for corn and oats, and would benefit late sown grain, which has been considerably injured by hot dry weather. The most damage so far has been by hail. A storm of this kind did great damage in central and southern portions of other places."

"Wheat harvest is well under way, except in the northern portion of the state, and while the crop has been damaged to some extent by previous hot dry weather, it is not thought that the damage has been so extensive as first reported. No threshing, except of early sown grain, has been done yet. Flax is generally reported as a good crop, but needs rain. Grain is a rule, filling well, except in some widely separated places."

The Minnesota report for the same month says:

"Wheat and oat harvest are general in all parts of the state south of the Red River valley, except in a small section from West to east, in the counties west to Kandiyohi and Leveille counties, and from Nicollet and Steele counties north to Kerkira and Anoka counties, where harvest is practically finished. South of the Minnesota river the rains have delayed harvest considerably, in some places making the fields so soft that the binders could not work. From all directions reports are coming in, in some places making the fields so soft that the binders could not work. The wheat stems are very tender, and that they are crimping down; for this reason a good deal of wheat has been cut green; where the rains were heavy much wheat and oats are so badly tangled that great labor is necessary to gather the crop, but it is said that the binders gather the grain, and that the heads are generally well filled. Barley is a good crop, though the grain is decaying; most of it is in stack. Flax seems to be a good crop. It is ripening in the south, and some has been cut. In most of the state corn, potatoes and pastures are in need of rain, but in the south they are growing splendidly."

CONVICTED OF TRESPASS.

Arthur Cox Infringed on Rights of Northern Pacific.

Arthur Cox was this morning convicted in Judge Gehring's court of trespassing on the tracks of the Northern Pacific railway on Rice's point, and was sentenced to pay a fine of \$1 and costs or go to jail for five days. He paid the fine. Detective Baker, of the road, the complainant, when testifying spoke for his assistant, a man named Smith, who was one of the witnesses for the defense, a man named Novak, jumped up and told the court that Smith was not hired by the road, but that Baker hired him to sweep wheat from cars for him. The latter denied this and said that Smith was hired to assist him as an officer. Baker was asked by the court if Smith was paid by the city or the railroad company, and Baker stated that he was paid indirectly by the railroad company.

Isaac Mattson, Barney Lawlor and John Campbell pleaded guilty of drunkenness and were committed to the jail for ten days.

Dr. Rea, the celebrated and justly popular specialist, will make his regular visit to this city as announced elsewhere. The doctor, whose remarkable success in treating all kinds of chronic ailments has attracted widespread attention at every point he has visited, and his record here is one that is known to most of our citizens, and fully sustains the remarkable reports given by his practice in other cities.

THE POLICEMEN'S PICNIC.

Weather the Only Thing Needed to Make It a Complete Success.

Tomorrow is the day when the policemen lay aside their troubles and disappointments beneath the greenwood tree. It is the occasion of the annual picnic of the Police Relief association, which will be given at Lester Park. The picnic is taken in the cake walk contest between Patrolmen John Link and Roy McKenzie. Link has held the championship for a long time, but McKenzie is gritty for his size and is determined to get the belt.

Arrangements have been made for street car service ample to accommodate everybody comfortably.

The Police Relief association is incorporated under the laws of the state and is a non-profit organization for the relief and support of the police and their families and to provide for the payment of the members of the association on the death of their wives.

CLEARANCE SALE OF WALL PAPERS

The entire H. H. Close stock must be closed out within ten days at one-fourth the original cost.

16 EAST SUPERIOR ST.

County Attorney Explains.

County Attorney Phelps said this morning that his action of yesterday was not to hinder the work of City Attorney Richards, but that he believed Mr. Richards' bill was not legal, and that he had been indicted once before for allowing illegal bills. His action in opposing Mr. Richards' claims, he said, was simply to keep the county board out of trouble. He further said that Mr. Richards' claim, included work which he (Mr. Phelps) and his assistant had taken part in.

Minneapolis Team Coming.

The management of the Duluth Baseball team received a message from Minneapolis this morning announcing that the strong team of the Glack's Minneapolis players would be here for two games Saturday and Sunday. Twin City papers crack this team up as the most elaborately uniformed and strongest club in Minneapolis or St. Paul outside the two league teams. Manager Hansell says that two good clean, fast games may be looked for. There will be no such features as the local team and fans had to contend with last Sunday.

Deer and Fawn Found.

The bodies of a doe and fawn were washed ashore on Park point this morning. The animals had been drowned. It is thought that they were swimming across the lake, which deer frequently do, and that the fawn became tired, they may have been overtaken by a squall, went down and the mother lost her life looking for her offspring. The body of the mother was found a little distance beyond the life saving station and that of the fawn some distance farther south.

NEW BOND DEMANDED

Commissioners Want Nothing But Surety Company Bond From Banks.

THE BOARD CHARGES

Sheriff and Board Discuss the Pay For Prisoners—Other Matters.

At the adjourned meeting of the board of county commissioners, held this morning, Alfred Merritt's offer to settle the judgments against the bondsmen of the American Loan and Trust company for \$500,000 failed by material vote and a resolution accepting Mr. Merritt's terms of settlement was laid over until the next meeting. It was expected that Mr. Merritt would be on hand with the cash when the board met this morning and after the board was in session an effort was made to reach him by telephone, but it was not successful and the matter went over.

The board approved the bond of the Duluth Trust company for \$200,000 as a depository for county money, the bond being furnished by the United States Fidelity and Guaranty company of Baltimore. The board, however, failed to approve the bond furnished by the American Exchange bank in the sum of \$500,000 by Hamilton M. Peyton, George Spencer, J. H. Upham and Melvin J. Forbes. This bond but a surety bond would be accepted by the board.

When the matter of the American Exchange bank came up, Commissioner Kugler said he would not vote for a personal bond even though he knew that every man on it was good. Attorney Phelps said that if a property bond was demanded it would cut down the interest rate. Commissioner Kugler said that there was no question in the mind of the board but that the American Exchange bank was a good bank, but he thought that the county had had enough experience with personal bonds and that the American Exchange bank could not furnish a surety bond, the board would have to look elsewhere for a depository.

The matter of accepting Mr. Mendenhall's proposition to pay the taxes of St. Louis three times over as a means of settlement on behalf of the Howell and Howell families was discussed at some length and then given a berth on the table where it will remain until the next meeting of the board and probably longer.

A question arose as to whether or not this property bond was actually shown to the board and not been bid in by the owners under the forfeited tax sale, but Commissioner Kugler showed that it had never been on the forfeited tax list and that it had been paid on it up to and including 1897.

Attorney Phelps said that there would be no trouble in collecting the taxes of the Howell family and Commissioner Kugler said that to allow this would be in direct violation of the board's policy of "no rebate on assessments" of this nature.

Commissioner Kaupf introduced a resolution directing the county surveyor to place either granite or iron monuments at the corners of each township in St. Louis county. The resolution was defeated.

The board unanimously recommended to the state auditor a rebate in the taxes levied against the First Church of Christ, \$4.44, and also on property of L. L. Cochrane at Proctor Knott, for \$20.55.

The regular bi-monthly bills were allowed, including bills amounting to \$182.65 for county road work during the past month.

Attorney Phelps brought up the question of the county should have a special law of 1891, but he was not in favor of it. He said that for the past eight months Sheriff Sargent had only been drawing 45 cents a day, and he was entitled to back pay amounting to about \$696, but to offset this it is provided by law that the county should pay the sheriff at the rate of 50 cents a day and the difference between the 45-cent rate and the 50-cent rate should be turned over to the county. For years past the sheriff's office had not been aware of this provision, and was taking the 50 cents allowed the county. The amount due the sheriff from the sheriff on this score just about balanced with the amount the county owed the sheriff for back pay.

Another matter that came up during the meeting was the matter of compensation on certain personal taxes promised to 1898. This was brought up by the bunch of judgments ranging under \$500 that were presented by Sheriff Sargent on Tuesday and where there was little or no property to levy on. The board voted Commissioner Kugler power to act in these cases.

As usual extensions and county road repairs formed a great deal of the work of the session. Hearings for the extensions of the West Knife River road, the Culver extension and the Martz roads were set for Sept. 5.

The board adjourned to meet again on Aug. 18 at 2 o'clock in the afternoon.

The 25c Four Course Dinners

Served at the Merchant's Dining Room, are filling a long felt want.

Commutation Tickets, \$5.00 for \$4.00.

Heavy Rainfall Yesterday.

Yesterday's rain was one of the heaviest that Duluth has had this season. More rain fell in ten hours ending at 7 o'clock this morning than fell in the whole month of July. The total fall was 1.88 inches. No reports of damage have been received today, and beyond washing some loose dirt or of loose dirt, it is not probable that there was any. The rain has caused a considerable amount of water in the lawns and foliage around the city.

FREEMUTH'S A Real Bargain Feast!

We are getting ready for a large fall and winter business and are pushing right ahead and forcing out all summer merchandise. A DEEPER CUT IN PRICES. We cannot afford to carry over any summer wearables, no up-to-date merchant can, we rather take a loss and give you the benefit. Complete new stock to start the season—that's our motto. Our buyers, who are on their way to the Eastern markets, go prepared to buy larger and more varied stocks than ever before—anticipating a mammoth fall any winter's business—and large stocks, must have plenty of room for display, and the result is this crowding out and

FREEMUTH'S

WILL ISSUE A SCHEDULE.
City Will Give One For the Canal Ferry.

The board of public works intends to issue ferry time cards, showing the time of departure from this side of the canal. The last leaves this side on the hour, the quarter, half and three-quarters, giving three or four minutes after the arrival of the cars on the Lake Avenue line. The Traction Company's cars, on Park Point, leave every twenty minutes, and the schedule cannot be changed to conform to that of the ferry on account of the fact that there is but one switch in the line where the cars can pass. The company intends to provide switch room next season so that the cars can be run at shorter intervals.

Service Provided For.
In the case of the Central Trust company against the Duluth-Superior bridge company et al, an order has been filed which permits the plaintiff company to secure service on all the defendants who live outside of the state of Minnesota. The United States marshal of Wisconsin is to serve the subpoena on the Duluth-Superior bridge company, and S. T. Norvell, the United States marshal of the eastern district of Pennsylvania will serve one on the Pennsylvania Steel company, the United States marshal of New Jersey will serve one on the Duluth-Superior traction company of that state, and the United States marshal of Connecticut will serve one on the Duluth-Superior traction company of that state.

Notice.
All disrespectful persons are hereby warned not to attend the Policemen's picnic tomorrow, at Lester Park, as they will positively not be allowed within the park limits or upon the grounds.

BLIND MAN FAVORED.
Ruling of Land Officers in a Recent Contest.

The local land officers have made a decision in the contest cases brought against the homestead entry of Samuel McClelland, of Two Harbors. It seems that he located in a piece of land some years ago, and lived on it for a couple of years, clearing considerable and cultivating about three acres. He was overcome by blindness, and was forced to leave the land after two years' residence, and went to Two Harbors, where he could get medical treatment. He is 74 years of age. Last month he offered to make final proof, but two contests had been entered, one by M. G. Newell and one by J. J. Gaylor. They charged abandonment of the land. When the facts were presented to the land officers, and in their letter to the general land office, said:

"The case is a pitiful one. It appears that the entryman had complied with the law down to the summer of 1897, and then had lost his eyesight and was unable to remain on the land."

"This office has information that attempts were made by at least the senior contestant to force a relinquishment from the entryman by reason of the contest, and it seemed to us a gross outrage that this blind man should be subjected to expense and delay by these contests in view of the fact that the merits of the case seem to be entirely with him."

"It has long been customary at this office, and that custom is by no means losing its force, that contests are initiated against any entryman whose claim is of any value, and to avoid the delay and expense of the contest, the entryman usually sacrifices his claim for less than it is worth, or buys his

peace for such sum as will be accepted by the contestant."

"We recognize, of course, that the procedure is unusual, and it is one that we have, except in one other instance, not followed, but we believe that in this case the course taken is justifiable by the facts."

THE FEMININE OBSERVER.
Chicago Journal: There is one subject
always in a woman's mouth—her tongue.
Everything but your friends stuck to
you in yesterday's weather.
Though we grumble at the world it is,
after all, the best we ever saw.
Studies in the nude in child life are
greatly in evidence in the above shows.

It is always a woman's fate to wear a linen collar on the most melting days. Very few women become stone blind where a diamond engagement ring is concerned.

One strain of music or the faint perfume of a flower can open up a whole volume of reminiscences.

Human nature is generally blamed for those things that it is quite impossible to attribute to anything else.

It is the easiest thing in the world to get into debt.

The tendency of the smart tie is heavenward, much to the discomfort of either the man or woman who essays its floating, graceful style.

Any one who wore a jettied hat yesterday felt and looked as though a dish of golden pudding had been forced to do service as a headpiece.

What a shock to her valgarious knowledge when the woman discovers that the footsteps she was absolutely certain belonged to her sweetheart was the possession of the huckster!

Nothing so fully indicates the different

friends for taste and preference as the variety of pets chosen by women. The latest is a turtle, and how any one can enthuse over that seems beyond belief.

To prove how masterful some small bodies can be one only had to observe the utter helplessness of a mother when her wee son or daughter sits down on the pavement and absolutely refuses to budge.

LOST HIS DRESS SUIT CASE.
CLARENCE E. JANE, formerly an officer

of the United States army, who recently was dismissed from the service, made application through the adjutant general of Massachusetts, for information as to the whereabouts of a dress suit case missing since the Porto Rican campaign, says the Boston Transcript. In his statement received here he says the case was turned over to a sergeant of the guard of the Sixth Massachusetts regiment on the island, and has not been seen since. Col. Darling of the Sixth Massachusetts regi-

gent, then it major on duty with the Sixth, says that he remembered seeing the case, and also remembers Mr. Lang. The colonel first ran across Mr. Lang while the latter was in command of a small regular force. Later he attempted to stop a pack train going forward to Gen. Miles, but was made to reconsider his orders by Col. Darling, who outranked him. Efforts have been made here to trace the missing case, but so far without success.

On and after June 22 The Evening Herald will run all probate notices three times, as required by law, for \$1. The regular price for this class of work heretofore has been \$6 for the three publications, and this will be a considerable saving to estates that have to be probated.

Why is Electric Light Best?

Because it is Healthy, Clean, Pure and Brilliant.

HEALTHY! It has no odor. Professor Thomson states one cubic foot of gas consumed as much oxygen as four adults. It causes no discolorations of furnishings and decorations in homes.
SAFE! As electric bell work, no danger of suffocation.
CHEAP! By using a little care in turning off lights when not in use it is cheaper than any other illuminant.

VISITED THE PRESIDENT.

Col. Kennon Reports Conditions Favorable in Cuba.

Plattsburg, N. Y., Aug. 11.—Col. L. V. W. Kennon had a long talk with the president today regarding the situation in Cuba. Col. Kennon has been on duty since he left Havana as adjutant general of civil affairs. He arrived at the hotel in company with Gen. Guy V. Henry and was immediately hurried into the president's rooms. He talked with President McKinley for nearly an hour and went over the entire Cuban situation with him. Being interviewed, Col. Kennon said that the situation in Cuba was satisfactory and the work of changing the civil laws to conform to American ideas and customs was progressing rapidly. Col. Kennon left at 11 o'clock.

noon for Washington to talk over the Cuban situation with Secretary Root, and from there he will proceed to Fort Logan, Col., to take command of the Thirty-fourth regiment, U. S. V., which is being recruited there.

AMMUNITION FOR KRUGER. Lorenzo Marquez, Dolague Bay, Aug. 11.—The German East African lieutenant Reichling has arrived here from Hamburg, Naples and Mombasa with 400 cases of cartridges and other war stores for the Transvaal.

NEW YORK'S DELEGATES. Albany, N. Y., Aug. 11.—Governor Roosevelt has appointed the following delegates to the conference on trusts to be held in Chicago beginning on the 15th of September next: Hon. Chauncey M. Depew, Hon. John G. Carlisle, Dr. Albert Shaw, Hon. W. Bourke Cockran, George Clinton, E. P. Thurston and Henry White. It is possible that this list may be added to at a later day.

A FAMINE TO BATTLE

Fully One Hundred Thousand People Without Food In Porto Rico.

Gen. Davis Asks Permission to Issue Rations to the People.

Aug. 11.—The worst storm ever remembered here struck this place Tuesday morning at 9 o'clock and lasted 24 hours. It came from the north-east. Ponce was flooded at midnight and at least 200 persons were drowned. Two hundred bodies, mostly those of poor people, and including many children have been recovered.

All the houses are damaged and hundreds have been destroyed. The soldiers and firemen worked all night heroically saving lives. There is no drinking water, gas, ice or electric light.

The commissary stores at Ponce were destroyed and the city is short of food and the army officers are distributing rations.

Fifteen vessels in the harbor were driven ashore. The weather bureau predicted the storm, but it is claimed that Ponce was not warned.

A mob of 1000 persons surrounded the residence of Alcaide Ponce de Leon, but they were dispersed by the fifth cavalry. The alcaide has been deposed on account of negligence.

Major Meyers of the Eleventh infantry is acting as alcaide in response to popular demand. The sum of \$5000 will be needed to clean the streets. The sanitary condition is serious and assistance is needed.

All the crops are totally ruined, the wires are all down and little news is obtainable from the interior. Alhambra, including the barracks, has been destroyed, but no lives were lost there.

Juan Diaz has been devastated, forty-six lives were lost there. Arroyo, Guayama, Salinas and San Rafael are reported to have been totally demolished.

The railroad between Ponce and Yauco has been destroyed and the military road is impassable. The river is flowing over the road for two miles. Mayaguez escaped serious injury.

Bananas are the sole food here. The people have gone to San Juan and its vicinity, which is comparatively uninjured.

Washington, Aug. 11.—The war department today received a telegram from Gen. Davis, giving fuller details of the damage done in Porto Rico by the hurricane. Gen. Davis says a famine is impending and asks authority to issue rations to the destitute. The message is dated yesterday and says:

"Later reports show that the hurricane was far more serious in the interior and a northern part of the island than here. Data for an estimate of the number of Porto Ricans who have lost everything is deficient, but I am forced to believe the number in the island cannot fall below 100,000 souls and a famine is impending. I ask that 2,000,000 pounds of rice and beans, equal quantities of each, be immediately shipped on transports to Ponce and some here. Urgent appeals to all post commanders for food for the destitute. Am I authorized to relieve distress by food issues? Rice and beans only desired."

"There have been many deaths of natives by famine since so far only one soldier is reported dangerously injured. Several towns are reported entirely demolished. As yet have reports from only four posts. Complete destruction of all barracks at two, and at two others a company of each had barracks destroyed. Troops are in canyons. Reports yet from the largest ports and Mayaguez, but they were in the vortex of the storm. At least half of the people in Porto Rico sustained entirely on fruit and vegetables, and the storm entirely destroyed this source of support."

"DAVIS."

ARROYO DESTROYED. Sixteen Lives Lost By Drowning in That Town.

San Juan, Aug. 11.—Arroyo, in the south coast, has been destroyed, sixteen lives were lost and the town is still submerged in water.

At Guayama the houses are still standing. Seven persons were killed there. A number of houses were pillaged, squads of soldiers were unable to maintain order and starvation threatens the population. The water supply of San Juan has been stopped.

TROOPS READY. Honolulu, Aug. 11.—Preparations are being made for the dispatch of 12,000 troops to South Africa. A number of transports are in readiness in Indian waters, and in the event of war troops will be embarked simultaneously here at Kure and at Calcutta.

TREASURER OF PHILIPPINES. Washington, Aug. 11.—Mr. Charles E. Kibbourne, paymaster of the army, has been appointed to duty as treasurer of the Philippine islands and island of Guam. All money of the civil government of the islands will be placed in his hands.

PAY THEIR FINES. Jefferson City, Mo., Aug. 11.—Sixty-eight of the seventy-three ousted insurance companies have paid their fines of \$1000 each. Sunday is the last day for the remaining companies to pay in order to keep from being ousted from the state under the provisions of the law.

GREAT LOSS OF LIFE. Now Said That Five Hundred Porto Ricans Perished.

San Juan, Porto Rico, Aug. 11.—It is now said 500 persons lost their lives at Ponce during the hurricane. Terrible distress prevails there.

AN APPEAL FOR AID. President McKinley Suggests One to Secretary Root.

Washington, Aug. 11.—Secretary Root has prepared an appeal to the people of the United States for the aid to those who have suffered in Porto Rico by the hurricane. This action was taken upon receipt of a telegram from President McKinley, suggesting that it be done.

The war department has taken prompt action on Gen. Davis' report. The army has prepared an appeal to the people of the United States for the aid to those who have suffered in Porto Rico by the hurricane. This action was taken upon receipt of a telegram from President McKinley, suggesting that it be done.

There is so much trouble coming to the world, said Lord Hollingbrooke, and so much more in the world than there is here at all.

Philosophy of this kind is based upon gross ignorance. The fact is, that there is no necessity for the severe pains undergone by the average woman. If a woman is strong and healthy in a womanly way, she will never suffer from weakness and disease of the distinctly feminine organs.

Favorite Prescription is a sure, speedy and permanent cure for all diseases of the female system. It is a direct remedy for the most common and most distressing of these diseases.

HE USED A HATCHET

Cleveland Teamster Frantically Wounds a Scab Motorman Who Shot Him.

MOTORMAN IN JAIL

Neither Is Fatally Injured But Teamster Taken to a Hospital.

Cleveland, Aug. 11.—William T. Caple, a non-union motorman on the Central avenue line of the Big Consolidated company, today drew two shots at William Little, a teamster, both bullets taking effect. In return Little picked up a hatchet lying in his wagon and hurled it at Caple, striking a frightful wound in the head and making a frightful wound.

The latter claims that Little called him a "scab" as his car was passing the wagon. This the teamster denies. The motorman, who fell upon the charge of shooting to kill, Little was removed to a hospital.

Neither man is fatally injured. Cleveland, Aug. 11.—The Boer organ in London, the Standard and the Daily News, today publishes a Johannesburg dispatch, threatening Great Britain, in event of war, saying the Boers are determined to run the mines and railways of the Transvaal, and that they will use force to accomplish their purpose.

While it will undoubtedly end in a victory for the Boers, the price of that victory will be the ruin of the Transvaal, and the price of that ruin will be the ruin of the world.

Another Johannesburg dispatch, however, says that the Boers are not prepared to fight a war of attrition, and that they are prepared to accept a peace which will give them the Transvaal, and the price of that peace will be the ruin of the Transvaal.

That part of Mr. Girard's will which has been most severely criticized, and which has been the subject of much discussion, is the provision for the education of the children of the deceased.

The rest of his estate was devoted to the education of the children of the deceased, and the provision for the education of the children of the deceased is the subject of much discussion.

The provision for the education of the children of the deceased is the subject of much discussion, and the provision for the education of the children of the deceased is the subject of much discussion.

The provision for the education of the children of the deceased is the subject of much discussion, and the provision for the education of the children of the deceased is the subject of much discussion.

The provision for the education of the children of the deceased is the subject of much discussion, and the provision for the education of the children of the deceased is the subject of much discussion.

The provision for the education of the children of the deceased is the subject of much discussion, and the provision for the education of the children of the deceased is the subject of much discussion.

The provision for the education of the children of the deceased is the subject of much discussion, and the provision for the education of the children of the deceased is the subject of much discussion.

WILL WITH NO PARALLEL.

Made By Mr. Girard, the Richest Man in America.

Girard college, Philadelphia, celebrated the fiftieth anniversary of its foundation last year, when it was announced that 1889 young men had been graduated during the half century, says William E. Curtis in the Chicago Record.

When Mr. Girard died, in 1831, he was believed to be the richest man in America. His estate was inventoried at \$5,000,000. Of this \$2,000,000 was in cash, stocks and bonds. The rest was in real estate in Philadelphia and other parts of Pennsylvania, Louisiana, Kentucky and in France, and included several very valuable coal mines in Pennsylvania.

In 1839 the total value of his investments, value to \$18,000,000 and new investments brought the total value up to \$27,000,000. From which the college has now several other charities are now supported.

estate since the death of Mr. Girard of the amounts to \$38,000,000, of which \$11,500,000 has been expended in the college, and the maintenance of the college.

Mr. Girard's will is probably the most remarkable will in the kind ever written. It drew it himself, kind ever written, and the original on file in the probate office in Philadelphia when it was made.

It makes thirty-six large and small pages, and is most minute in every particular. It bequeathed to the college, for the education of the children of the deceased, a sum of \$1,000,000.

to the college, for the education of the children of the deceased, a sum of \$1,000,000. It bequeathed to the college, for the education of the children of the deceased, a sum of \$1,000,000.

HIDE WELL

The Ingenuity of Women When They Come to Smuggling Goods.

A Bride's Attempt to Import Her Whole Trousseau Without Duty.

The big diamond seizure last week, says the New York Herald, has drawn renewed attention to the question of smuggling by women and the various methods and means which they employ in order to smuggle even the smallest, cheapest articles. The diamond seizure was the first of the kind, and it was the first of the kind, and it was the first of the kind.

The diamond seizure was the first of the kind, and it was the first of the kind, and it was the first of the kind. The diamond seizure was the first of the kind, and it was the first of the kind, and it was the first of the kind.

THE ENEMY HAS FLED

The Village of Calulut Burned and Abandoned By Insurgents.

AMMUNITION SHORT

Philipinos Have Torn Up the Railroad Track Beyond San Fernando.

Manilla, Aug. 11.—Gen. MacArthur's troops remained last night at Calulut. The rebels had evacuated the village far beyond their range, for the American outposts were not disturbed and not a shot was fired during the night.

At daybreak this morning a reconnoitering party, consisting of a battalion of the Seventeenth infantry, with one field piece, started up the railroad track toward Angeles, four miles north. The party approached within 1200 yards of the town and opened the fire with the gun. The Americans were received with a badly directed rifle fire, which the battalion of the Seventeenth returned with a few volleys.

The strength of the insurgents at Angeles was being known, the situation was reported to Gen. MacArthur, who did not desire to send reinforcements, and directed the company to return to the town. Soon after the receipt of these orders, a revolving cannon and a 6-pounder. The heavy artillery opened on both sides, but the rebels were not seen to move.

A battalion of the Twelfth infantry was also sent on reconnoitering expedition toward the west, but up to noon no firing had been heard in their direction and no word had been received from them at Gen. MacArthur's headquarters, and it is believed that they encountered nothing. Everything indicates that all the rebels have scattered for miles in every direction around Calulut.

The insurgents lost heavily in the fighting around Calulut. It is believed that 100 were killed and 400 wounded. The lower regiment killed 12 in one place, and the Twelfth killed 12, including 3 officers.

The attack was a complete surprise to the insurgents, who had no idea that a movement was intended until the armored car opened a deadly fire with two Gatlings, a revolving cannon and a 6-pounder. The heavy artillery opened on both sides, but the rebels were not seen to move.

A majority of the Filipinos were asleep when the attack was made. Men with large belts were heard running among the shrubs around the soldiers. The Americans maintained almost a perfect silence, and the rebels were not seen to move.

The Filipinos tried to ambush the Americans several times, the country in the neighborhood being well suited to these tactics, but the troops stopped for nothing, forcing their way through or over obstacles, and in the end they were able to locate the fleeing enemy.

The officers highly commend the reports of the various units. The report recently received that the insurgents are short of ammunition is well informed. The natives at Calulut said the insurgents had only a few rounds of ammunition each and that five rounds extra were issued just before the fight.

Since the American occupation of San Fernando the rebels have torn up the three miles of railroad between there and Calulut, and are endeavoring to get the armored car more than two miles beyond San Fernando.

THE MAIL OF VOLUNTEERS.

Strenuous Efforts Are Made to Deliver It Promptly.

Washington, Aug. 11.—Interesting, as evincing the government's efforts to rush mail for the soldiers to the front, is a communication received at the post office department from San Francisco reporting a telegraphic order of July 21 to comply with a request of Gen. Otis to have mail for the First Montana sent to a train leaving San Francisco at 7 o'clock, five hours later. But a day or two previous, the report says, the transport Solace arrived at San Francisco with about sixty sick and disabled soldiers from the First Montana and their resters were hastily sent for, but were not finally delivered to the superintendent of mails till after 3 o'clock. Meantime all the mail for the men on the Solace had been sorted by regiments and companies and more than 400 letters were put in the hands of the postmen for delivery. The balance was forwarded on the 7 o'clock train.

NOMINATED BY OTIS.

Washington, Aug. 11.—Gen. Otis has made the following nominations for officers of the new volunteer cavalry regiment known as the Eleventh cavalry and organized in the Philippines: Colonel, James Lockett, captain Fourth cavalry.

Lieutenant colonel, John H. Welschberger, major, First Washington Cavalry. Majors, Hugh T. Syne, major First Cavalry; Thomas E. Carson, lieutenant Fourth cavalry; Thomas E. Nelson, lieutenant Thirteenth infantry.

Adjutant, Capt. Evan E. Young, lieutenant First South Dakota. Quartermaster, Charles Arnold, quartermaster sergeant United States army. Commissary, George E. Winterbottom, private Fourth cavalry.

Among the captains are T. Davidson, captain Fifty-first Iowa; Samuel G. Larent, lieutenant First South Dakota; Gay E. Logan, lieutenant Fifty-first Iowa.

The first lieutenants include James O. Rose, lieutenant Fifty-first Iowa; Charles B. Cowbridge, lieutenant Thirteenth Minnesota; Frederick H. Parks,

Lieutenant First South Dakota; Francis H. Lincoln, sergeant Fifty-first Iowa and the second lieutenant, Emory C. West, private First South Dakota.

MORGAN CITY SAILS.

San Francisco, Aug. 11.—The U. S. transport Morgan City sailed for Manila last night with 675 recruits and "casuals" aboard. The departure of the vessel was uneventful. The recruits were marched aboard during the afternoon, and when the supplies were all taken in the transport started for the Philippines.

GEN. MERRITT SPEAKS.

New York, Aug. 11.—Since the visit of Gen. Wesley Merritt to Secretary Root, in this city, rumors have been current that it has been settled that Gen. Merritt will succeed Gen. Otis in the Philippines. When Gen. Merritt was seen in his home on Governor's island he said:

"Any rumor that I may succeed Gen. Otis in the Philippines is without foundation. When Secretary Root was in the city, three or four days ago, I dined with him, and, of course, I cannot discuss any subject that may have come up. If I am ordered to Manila I will obey orders the same as any army officer would do."

BREAKING UP TRAFFIC.

Washington, Aug. 11.—Mail reports received at the navy department show that Admiral Watson is using every means to break up the insurgent traffic between the islands of the Philippines. Commander Sperry of the Yorktown, at Iloilo, reported to Admiral Watson that he had destroyed a number of small boats used by the insurgents to transport goods and passengers between the islands.

The commandant of the island of Negros and Leyte from Iloilo and the commandant of the island of Samar, under command of Daniel H. Curran, to break up this traffic in four days he destroyed thirteen schooners along the coast of Panay. Each one of the vessels had a full cargo in such case the natives were set ashore with their personal effects.

THE LATEST BARBARITY.

A Negro Is Lynched For Threatening a Woman.

New Orleans, Aug. 11.—News of a lynching in Grant Parish, La., has been brought out through the finding of a negro's mutilated body floating in the Bayou de la Platte. The victim, a man named Singlet, who some days ago went to the house of V. Boyett, a planter, and asked for food for his wife, who was alone in the house. The lady brought some bread and meat to the front gate, when the negro, who was with him, came through the house and out into the field where her husband was at work. The details of the pursuit of the negro, of his capture and execution, and of the man's body, show that the lynchers resorted to all the latest barbarities in executing their caprice.

HER TERRIBLE CRIME.

A Woman Poisons Her Family and Shoots Herself.

Indianapolis, Aug. 11.—Last evening Mrs. Clara Baldwin, of Irvington, wife of Enos Baldwin, special agent of an insurance company, poisoned her husband, her son James, 18 years of age, and her daughter Mary, 15 years old, by putting strychnine in their food at dinner. Mrs. Baldwin, while the family were at the table, excused herself, went to an upper room of the house, and with a revolver shot herself through the heart, and then fell into the arms of a neighbor.

Mrs. Baldwin is believed to have been insane. She was for some time an inmate of a private sanatorium. The druggist to the southward is 30 feet in length, and is more or less covered by the surface. It is thought, will be reached 20 feet further southward, as it dips to the northward. It is not impossible, too, that the vein may be with an almost uniform width of 12 feet, and I have some curiosity as to its width and character on the surface. It is thought, will be reached 20 feet further southward, as it dips to the northward. It is not impossible, too, that the vein may be with an almost uniform width of 12 feet, and I have some curiosity as to its width and character on the surface.

It is not impossible, too, that the vein may be with an almost uniform width of 12 feet, and I have some curiosity as to its width and character on the surface.

At the time of the visit the shaft was being relieved of smoke by a draft caused by sending a steam jet up a 6-inch shaft. The shaft is now being installed. This is run by the hoisting engine. Neighboring mining men said that the vein in the mine was with an almost uniform width of 12 feet, and I have some curiosity as to its width and character on the surface.

SWEDEN BOY AND OLIVE

Visit to Two of the Gold Properties of Seine River.

RESULTS ARE GOOD

Splendid Showing Made By Both Mines—Work Is Being Rushed.

Mine Center, Ont., Aug. 7.—(Special to The Herald).—Capt. McLeod is making splendid progress in development work at the Swede Boy mine, and the results attained are in proportion to the progress. The main shaft is now down 89 feet and the 100-foot mark will soon be reached.

At the time of my last visit drifting to the southward had just been commenced on the 75-foot level. One foot in the drift from the shaft wall an ore body 14 inches thick was encountered. At that time it had just been struck, and samples showed a fine quality of ore. I ever saw in Western Ontario. Assays of that ore ran as high as \$30 per ton in gold.

No indication of that vein was visible on the surface. As the veins on this property dip to the northward, so does this. As a result, at 80 feet this vein comes right into the shaft, and the drift, in 5 feet of depth, has increased from 14 inches to 2 feet. If that rate of increase keeps up half way, at the bottom of the ore body will be one of the best of the property in both size and richness.

Drifting to the southward, at 100 feet was reached on the 75-foot level. At that depth the surface indications and character of the vein in the drift were greatly improved. The vein was greatly improved. Capt. McLeod assures me that he struck 25 feet of solid quartz at a depth of 100 feet, and that the vein was greatly improved. The vein was greatly improved. Capt. McLeod assures me that he struck 25 feet of solid quartz at a depth of 100 feet, and that the vein was greatly improved.

Drifting to the southward, at 100 feet was reached on the 75-foot level. At that depth the surface indications and character of the vein in the drift were greatly improved. The vein was greatly improved. Capt. McLeod assures me that he struck 25 feet of solid quartz at a depth of 100 feet, and that the vein was greatly improved.

At that time it had just been struck, and samples showed a fine quality of ore. I ever saw in Western Ontario. Assays of that ore ran as high as \$30 per ton in gold.

No indication of that vein was visible on the surface. As the veins on this property dip to the northward, so does this. As a result, at 80 feet this vein comes right into the shaft, and the drift, in 5 feet of depth, has increased from 14 inches to 2 feet. If that rate of increase keeps up half way, at the bottom of the ore body will be one of the best of the property in both size and richness.

Drifting to the southward, at 100 feet was reached on the 75-foot level. At that depth the surface indications and character of the vein in the drift were greatly improved. Drifting to the south

"Second to None"

Is the motto of a famous British regiment.
It is also a distinction which we claim for

No coffee is more palatable or nutritious. It is free from impurities, therefore does not harm the stomach. Give it a trial. Send us your verdict. If your grocer does not keep it, send us his name with your order, naming this paper, and we will see that you are supplied.

See that the seal is unbroken.

Never sold in bulk. Packed exclusively in 1-lb. and 2-lb. sealed tin cans by

Thomson & Taylor Spice Co.,
Chicago, Ill.

THE LAND OF DESPAIR.

Unknown Great Bend Region of the Lone Star State.

An expedition sent out by the United States geological survey, under the leadership of Robert T. Hill, is about to undertake an exploration of the least known portion of the United States, namely, the Great Bend region of southwest Texas, so called because it lies in the great bend of the Rio Grande river. An old saying in that country is that this inhospitable domain was originally designed as a place of banishment, but that somehow the plan to utilize it thus was not carried out—for what reason cannot be imagined, inasmuch as it seems admirably adapted for the purpose, says the Washington Post. It is a land of weirdly horrid, desert basins, sandwiched between ranges of granite mountains, which are carved into all sorts of astonishing shapes, but the strangest feature of its formation is a series of mighty canyons, almost equaling in grandeur the famous canyon of the Colorado.

It is a country in which, as the phrase goes, the traveler must "climb for water and the forerunner of death." The expression is correctly descriptive, inasmuch as water can only be obtained by ascending the mountains, where the streams, while the only available fuel, are in the absolute absence of trees. It is a land of weirdly horrid, desert basins, sandwiched between ranges of granite mountains, which are carved into all sorts of astonishing shapes, but the strangest feature of its formation is a series of mighty canyons, almost equaling in grandeur the famous canyon of the Colorado.

It is a country in which, as the phrase goes, the traveler must "climb for water and the forerunner of death." It is a land of weirdly horrid, desert basins, sandwiched between ranges of granite mountains, which are carved into all sorts of astonishing shapes, but the strangest feature of its formation is a series of mighty canyons, almost equaling in grandeur the famous canyon of the Colorado.

The canyons of the Rio Grande are a series of gigantic, roofless, tunnels carved by the river through the range of mountains. Between the ranges are dry plains called "bozons."

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of. There is but one way to cure it. The disease is in the blood, and all the sprays, washes and douches, no matter how effective they may be, cannot reach the source of the trouble. Swift's Specific Catarrh Remedy, for it is the only remedy which can reach the source of the trouble, is the only remedy which can reach the source of the trouble.

Mr. J. D. McAllister, of Harborsburg, N. Y., had Catarrh for years. He writes: "I could see no improvement whatever, though I was constantly treated with sprays and washes, and douches, and all the other remedies which only reached the surface. I then decided to try Swift's Specific Catarrh Remedy. I used it for a few days, and after a few bottles were used, I felt a perceptible improvement. Continuing the remedy, the disease was forced out of my system, and a complete cure was effected."

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly reaches the source of the trouble, and cures even the most aggravated cases.

Swift's Blood Purifier.

Purely Vegetable and is the only blood remedy guaranteed to contain no dangerous minerals.

Books mailed free by Swift Specific Company, Atlanta, Georgia.

PRINCE OF BUMMERS

The Unique Career of Beau Hickman in the National Capital.

A NOTED CHARACTER

Tolerated By Statesmen, Because They Enjoyed His Jokes and Dodges.

From The Herald Washington Bureau.

Washington, Aug. 11.—(Special to The Herald.)—The national capital never produced a greater character than Beau Hickman, or, as he called himself, Robert S. Hickman, who was known as the prince of American bummers. Beau Hickman was often called Beau Brummel, the renowned beau of England. Both were the protégés of generous patrons, and each professed a life of prodigious dissipation. Beau Brummel, however, was a man of letters, and his dissipation was confined to the indulgence of his taste in dress and in the company of his friends. Beau Hickman, on the other hand, was a man of letters, and his dissipation was confined to the indulgence of his taste in dress and in the company of his friends.

Beau Hickman was a native of Maryland, and was born in the year 1812. He was a man of letters, and his dissipation was confined to the indulgence of his taste in dress and in the company of his friends. He was a man of letters, and his dissipation was confined to the indulgence of his taste in dress and in the company of his friends.

STREET CARS ABROAD.

Interesting Pamphlet on Transportation Facilities.

Edwin P. Mack, cashier of the Royal Trust company's bank, has issued an interesting little pamphlet on the subject of street cars in various cities over the world, and it will prove a most valuable guide to the traveler who wishes to know the latest in street car construction and operation.

Of all foreign cities, it is probable that Paris, France, is best provided in the matter of transportation facilities. The city of Paris has a most extensive and efficient system of street cars, and it is well worth the traveler's while to study the system of the French capital.

Beginning with Basel, Switzerland, which is a city of some 20,000 inhabitants, and ending with London, England, which has a population of over 5,000,000, the pamphlet gives a detailed description of the street car systems of each of these cities.

THE WOES OF WOMEN

are, at their best, bad enough—
The reason for most of these woes?—
They have sick kidneys—and most of all, most of them, either will not or do not know it. Dear Madam—
Do you want to get rid of your woes? Take

KID-NE-OLDS

The modern, scientific, practical up-to-date medicine that banishes kidney backache, kidney ailments, sleeplessness and urinary disturbances in either adults or children.

We know Kid-Ne-Olds will absolutely cure the above ailments and minor affections directly due to them—we have given names of those who were cured—investigate and you will get at the truth.

Disordered kidneys are indicated by pains in the back, distress or fullness after eating, scanty or scalding urine, weakness and chills, pains in the joints, nervousness, sleeplessness, loss of vitality, swelling in limbs or body or both, and sediment in the urine.

Kid-Ne-Olds are in yellow tablet form—put up in boxes—sell for 50c a box at all drug stores—your druggist will tell you of cures they effected here at home—He will vouch for the truth of our every assertion.

Morrow's Liverlax cures constipation, biliousness, costiveness—they sell for 25c a box—at all drug stores.

Kid-Ne-Olds and Liverlax, manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

FOR SALE BY S. F. BOYCE.

WEAK MEN BRACED UP.

Try Morrison Bishop's Pills for all diseases arising from dissipation, self-abuse, excesses or cigarette smoking. It is a powerful, yet gentle, and safe remedy, and will cure all diseases arising from dissipation, self-abuse, excesses or cigarette smoking.

LARGEST CIRCULATION IN DULUTH.

OFFICIAL PAPER OF ST. LOUIS COUNTY.

HERALD'S CIRCULATION

HIGH-WATER MARK,

17,148.

THE WEATHER.

Chicago, Aug. 11.—Forecast until 8 p. m. tomorrow: Wisconsin—Fair tonight and Saturday, preceded by thunder storms in east portion this afternoon and tonight; gradually cool Sunday; local showers in west winds, Minnesota—Fair tonight and Saturday, with cooler in east portion; brisk westerly winds.

NOTICE TO ATTORNEYS.

On and after June 22 The Evening Herald will run all probate notices three times, as required by law, for \$1. The regular price for this class of work has been \$8 for the three publications, and this will be a considerable saving to estates that have to be probated.

"IN HIS STEPS."

The most talked-about minister in the world today is Rev. Charles M. Sheldon, of Topeka, author of "The Miracle at Markham," "East Lynne" and "In His Steps." It is by the great popularity of the latter novel that he has gained his fame. Over 3,000,000 copies of "In His Steps" have been circulated, and it is popularly supposed that of "Uncle Tom's Cabin," "East Lynne" and "In His Steps," the latter is the most extensively read novel that has obtained a larger circulation in England than in this country. The story interests every Christian and every person in touch with modern thought. It relates the experience of a number of persons who determined to act upon the resolution to act in their business and in all affairs of life as they would suppose the Father in Heaven might expect them to act. The chief characters taking part in the experiment were a clergyman, a railroad superintendent, a newspaper editor and a young man with \$100,000. It has been asserted repeatedly that the rule is impractical and that Christianity cannot be applied to life. This story attempts to cast light upon the problem.

A FASCINATING STORY.

It is the opinion of the Detroit News that no novel in recent years has conceived a plot so intricate as a story so dramatic as the story of the Dreyfus case, which is once again commanding world-wide attention by reason of the opening of the second trial, which caused the fall of several ministries and at one time all but threatened the overthrow of the French government. It has been confessed which Capt. Dreyfus was convicted of selling military secrets to foreign governments was forged, and the prosecution in the second trial hangs upon a very slender thread, unless, as has been widely suspected and frequently asserted, there is no other evidence which, for fear of possible international entanglements, the government dare not present in the case.

A Bachelor's Reflections.

New York Press: In the early days of the church even Christians loved one another. In any event, as the News says, all civilization has become interested in this solitary captain, who is either the victim of a gigantic conspiracy, whose motives, whatever they may be, have moved half the world, or the champion of France, or the prominent public man, whose work was so cunningly done that even a complete exposure of his perfidy would involve his country in perilous and perilous situations. Fully appreciating the great work he has undertaken among the humble of Topeka and such outlying districts as he is able to visit in his ministering rounds. In Harper's Weekly there is a long account of Dr. Sheldon's life, which says in part:

"Mr. Sheldon was born at Wellsfield, N. Y., Feb. 28, 1837, but his father removed to Dakota in his early years, and he was thus reared on a Dakota farm, where circumstance had much to do with the strong physique and vigorous nature of the man. He had the good fortune to be educated at Phillips academy, Andover, Mass.; at Brown university, Providence, R. I.; at Harvard in 1858, and subsequently at Andover Theological seminary, where he was graduated in 1858.

"Mr. Sheldon went to London in 1856 to study humanity in that great city. After returning to America he took charge of his first parish, at Waterbury, Vt. Again he showed his desire to know people in order to help them. He said: 'I wanted to know my people, to become familiar with their wants, their temptations. It seemed to me that if I could see every man, woman and child in my whole parish between two Sundays, I could face them on Sunday and preach with the knowledge that I was preaching something definite. But it was a physical impossibility. The parish was seven miles square, and being in the heart of the green mountains, it was all up hill. My only means of locomotion was a small horse that had quinsy, spring-halt and a lazy disposition.'"

The agricultural department has issued, in bulletin form, its discovery that there was a time when Porto Rico was entirely covered with trees. It is added that they varied in height from the diminutive mangrove bushes, which border the seashore, to the gigantic deciduous trees mingled with the fronds and trunks of towering palms, which add height to the

WATER POWER GROWTH.

The Chicago Record recalls the fact that ten or fifteen years ago the scientific writers were trying to prove that the steam engine had forever superseded water power. But improved methods in the generation and transmission of electrical energy have again brought water power to the front. A slight retardation in the tendency has been created by the advance in the price of copper, but in turn this is having the effect of bringing aluminum into use as a conductor, for it appears that aluminum is a better conductor than copper, while its lightness and greater tensile strength permit it to be strung more easily and at small expense. It is believed that the demand for aluminum will result in improving the device for its manufacture to such an extent that it will soon become a formidable rival of copper for all electrical work where copper is now used.

In many districts enterprises are on foot to utilize existing water power or by canal-cutting and dam-building to create new power. At three points, N. Y., 40,000-horse power is being secured by diverting the waters of the St. Lawrence river. Omaha expects to raise power from the Platte river. About Rochester, N. Y., 10,000-horse power is to be got from the Genesee river. At Niagara falls the water power that is now under control of the American company will soon lapse to the Canadian government, when it will be improved by a Canadian company. Between Chicago and Minneapolis on the Illinois river 100,000-horse power will be created by the waters of the points on the river. Companies are organizing to utilize it. The effort to grab the privileges at the foot of the drain canal was an evidence of the growing value of water power. Some water power may be had when it is considered that it is two or three times as great as the force at Minneapolis of that which the present contrivances at Niagara falls utilize.

The Record's list of new water power enterprises fails to include the great scheme that is projected at Smelt, Marie. One of the grandest water powers in the country is within a few miles of Duluth. Some day, it is hoped, the St. Louis river power will be utilized for the generation of electricity that will be transmitted to this city and the surrounding towns, furnishing power so cheap that a multitude of manufacturing enterprises will start up. Unfortunately there is no prospect at present of its early development, as it is controlled absolutely by one man, who will not improve it himself and sets upon a price so high that no one else would care to pay the price and then invest about as much more to develop the power.

THE DULUTH EVENING HERALD: FRIDAY, AUGUST 11, 1899.

cluding that it was cheaper to buy the saloon than to purchase dynamite. In fact, the good people made up a purse and bought him out. Some other fellow may conclude to dispose of a stock of wet goods in the same way as the pious people of Burlington.

What a gloomy pessimistic chap that fellow Markham must be, says the Toledo Commercial. In his poem "The Man With the Hoe," he preaches nothing but the gospel of despair. He is an extreme and uncompromising socialist. Take him into a garden made fragrant and beautiful by roses and instead of admiring their splendor he would gaze on the sodden earth at their roots.

For the first time in the history of Chicago, a bank in that city recently sent \$1,500,000 to Texas to move the cotton crop. Hereafter nobody would have thought of applying anywhere but in New York for such a sum for that purpose.

A Kansas paper kicks because Eastern papers continue to refer to the fact that Kansas is a state that has not a single tornado, notwithstanding the fact that tornadoes do strike there is not another state this side of the Rocky mountains so free from this class of storms as Kansas.

For the fiscal year ending July 1, 1900, the United States has imported 1,424,000 gallons of American beer, against 1,000,000 gallons the previous year. This is one of the incidents of "benevolent assimilation."

Speaker Reed has returned from Europe but he preserves dense silence regarding the question whether he intends to remain in congress or resign.

The Southern Epworth leaguers want a separate convention into which the colored brethren might enter. Will they also want a separate heaven?

While the Carter case remains undid, the United States can hardly point the finger of scorn at France on account of the Dreyfus affair.

Ten claim in South Carolina is said to have been made by the protectionists. Now watch the protectionists claim that the war tax on tea is the cause of it.

It cannot be denied that Wharton Barker and Ignatius Donnelly are getting a long run for their money.

In a New York law case the other day it was shown that one of the parties paid \$500 for a husband.

Thirty millions of English capital has been invested in Cuba since the American occupation.

NEWS BOILED DOWN.

At Toledo, Ohio, Albert Deers shot and killed Albert Linger while the latter was in company with Deers' wife. There had been bad blood between the two for some time and Linger had been warned to stay away from Deers' home.

The report of Commissioner of Pension Examiners for the fiscal year ended June 30 last shows total disbursements of \$35,225, leaving a balance of \$1,875,18 in the treasury, out of the \$30,000,000 appropriated. The total number of pensioners on June 30 was 60,259, a decrease of 205. There were 10,201 names added to the roll and 4,239 dropped. The report shows that the pension roll is decreasing.

Deputy Sheriff Dave Chadwell, of Clay county, Ky., has been shot and killed by the Grifflins after the Phillips had killed him in the terrible battle with the Grifflins last night. Loss, \$50,000; insurance, \$200.

At Brinkley, Ark., a collision between a passenger train and a freight train resulted in the injury of seven persons, two of whom are probably fatally hurt.

Ex-Governor John F. Atchell declared yesterday that he had great confidence in William J. Bryan's political sagacity. He said that if Mr. Bryan went to Kentucky to make speeches for William Greer he would be the best thing to do and that he had only the good of the Democratic party at heart.

Judge J. M. Wilson of Iowa City is being brought out as a compromise candidate for the Democratic nomination for governor of Iowa at next week's convention.

The Business Men's League of St. Louis resolved to launch a vigorous campaign to secure the Republican convention next year. It is proposed to offer the Exposition Coliseum for the convention and to secure the business men's support.

Admiral Dewey has declined the invitation to a dinner extended to him by the officers of the Union League club of Brooklyn. The admiral expressed himself on the ground of poor health.

It is reliably reported that Gen. Juan Emilio Jimenez, the aspirant to the presidency of the republic of Santo Domingo, has sent a confidential agent to New York to carry out certain plans. The agent left yesterday afternoon for New York and is fully empowered to present the views of Gen. Jimenez.

On his arrival at Naples, Admiral Dewey will be the guest of Albert Stoll.

The committee in charge of the arrangements for the laying of the new corner stone of the federal building in Chicago next October, made arrangements to invite ex-Confederate generals and officers to attend the ceremony. The list includes seven lieutenant generals, thirteen major generals and 10 brigadier generals.

Rev. Walter Manning Barrows, D.D., of Greenwald, Conn., died at Macleod's, at Alhambra, Ill., at the home of his brother, President John Henry Barrows, of Oberlin college.

At Alhambra, Ill., an agreement was reached between the striking coal miners and operators and the men resumed work today.

The wage scale committees of the American Flint Glass Workers' union and manufacturers who have been in session for a week at Pittsburg, adjourned last night after settling all the scales except the chimney scale. It can be stated that the workers have obtained a general advance of 5 per cent.

Every labor organization in Chattanooga has joined in the fight against the Electric Street Car company on account of the lockout of the union motormen, and a quiet boycott is in effect.

AMUSEMENTS.

FITZSIMMONS-JEFFRIES FIGHT.
The pictures of the Fitzsimmons-Jeffries fight which will be seen at the Lyceum Saturday evening are being produced at Minneapolis (this week and are crowding the Metropolitan theater there nightly. The papers speak very highly of them and they have given such satisfaction that Manager Scott has booked them for a return engagement. The entire fight is shown and the entertainment consists of about one hour and forty-five minutes.

The Grocers' Picnic.
It has been decided to hold the grocers' picnic at Fond du Lac on Aug. 23 as was the original intention. The committee has finally succeeded in arranging for cars and an ample number will be provided to accommodate the crowd. The program is now in the hands of preparation. There will be sports, games, speaking and dancing.

Best ice cream in the city. Mrs. Ruf. 102 West Fourth street. Telephone 431.

CLOSE OF THE SHOOT A Bath with Jap Rose

Morrison, the St. Paul Crack, Walks Off With the High Honors.

DR. DAY IS THIRD Made a Tremendous Spurt in the Afternoon and a Great Finish.

is quite the proper thing. It's a pure glycerin transparent soap.

In spite of handicaps in the way of wind and rain, the seventh annual tournament of the Central Gun Club ended yesterday, one of the most successful shoots ever held in the state. All the visiting cracks are loud in the praise of the manner in which the shoot was conducted, though they would not tell in print.

The finish was made yesterday in a hot sun. Morrison, the St. Paul crack, was the victor. He made a tremendous spurt in the afternoon and a great finish.

ORE MOVEMENT.
July Shipments Largest in History of the Lake Superior.

Cleveland, Aug. 11.—The Iron Trade Review says: The figures collected by Cleveland Iron selling firms show that the July movement was the largest in one month in the history of the Lake Superior. The total movement of ore for the month of July was 2,367,735 gross tons from all upper lake ports, as compared with 2,246,714 gross tons for the month of June. The total movement of ore for the month of July was 2,367,735 gross tons from all upper lake ports, as compared with 2,246,714 gross tons for the month of June.

WOULD NOT LOOK PLEASANT.
An Austrian Count Attempts to Photograph Southern Savages.

Victoria, B. C., Aug. 11.—The Count Festelet of Austria, who, with his countess, has been cruising in the Southern sea in the yacht "Tolna," narrowly escaped death at the hands of savages. The "Tolna" had been visiting the larger of the Solomon Islands, the count taking many chances to secure photographs of head-hunting natives and cannibal feasts, when the savages photographed developed sudden and fierce hostility.

SPORTS OF A DAY.
At Davenport, Iowa, Kid McCoy fought five rounds each with Tom Dugan and Australian Jack Graham, of Pittsburg. McCoy was victorious in the first round, but Graham won the second and third rounds. McCoy won the fourth and fifth rounds.

THE GERMAN CANNAL.
Berlin, Aug. 11.—Emperor William today attended the opening of the Dortmund-Ems canal. The canal, which is 26 miles long, was the first of its kind in Germany. It was opened to traffic today.

THE KING OF KLONDIKE

Alexander McDonald Fails, His Liabilities Being About Six Millions.

WILL BE SACRIFICED Left His Business In Incompetent Hands While Away In Europe.

Chicago, Aug. 11.—A special to the Times-Herald from San Francisco says: Alexander McDonald, king of the Klondike, has failed. His liabilities are estimated at \$6,000,000. His assets are of uncertain value.

THE DAKOTAS.
Matter of Establishing Chair of Pharmacy Goes Over.

Fargo.—The matter of establishing a chair of pharmacy at the agricultural college has gone over for a year. The North Dakota Pharmaceutical association discussed the question at a conference held in Fargo last week. The association decided to wait until next year.

THE LOVERS.

Mme. Yale's HAIR TONIC

Ladies and Gentlemen: It affords me great pleasure to call the attention of the public to the Excellence of the Hair Tonic, which is the first and only hair tonic known to chemistry, which positively turns gray hair back to its original color without dye. It has gone on record that

MME. YALE.
wonderful woman chemist—has made this most valuable of all chemical discoveries. Mme. Yale personally endorses its action and gives the public her solemn assurance that it has been tested for several years, and is a most reliable and effective remedy. It contains no injurious ingredients, and is a most reliable and effective remedy. It contains no injurious ingredients, and is a most reliable and effective remedy.
